

Industries Served

- Power Utility
- Food and Beverage
- Cement
- Brewery
- Dairy
- Pharmaceutical
- Water Treatment

Our Solutions

- PLC SYSTEMS
- HMI / SCADA SYSTEMS
- CONTROL PANELS
- DRIVE SOLUTIONS
- MOTOR CONTROL CENTERS
- SWITCHGEARS

“**Creative, Cost effective, Cutting-edge Industrial Automation and Control Solutions from Concept to Commissioning.**”

Our Mission

To consistently exceed customer expectations by implementing successful, cost effective process control solutions that add value to our customers' business operations.

About Creative Systems Integration

Helping our customers achieve their operational goals by implementing innovative industrial process control and automation solutions with state-of-the-art technologies.

Creative Systems Integration LLC (CSI) provides customized process automation and control solutions for a broad range of industries. CSI strives to offer the very best industrial control System Integration services and products. We specialize in PLC programming, Human Machine Interface (HMI) programming, motion control applications, Motor Control Centers (MCC) and electrical power distribution.

Our Technology Partners

Our Services

- Control System Designing
- Custom Control Panel Fabrication
- PLC / HMI / SCADA Programming
- I/O Checkout, Commissioning & Start-Up Services
- Training for Operations, Maintenance Engineers
- Site Commissioning
- After Sales Service

Engineering Expertise

- Control Panel Layout/Design
- Control & I/O Design
- Power Distribution
- Industrial Network/Communication
- Instrumentation Specification
- Field design & Cable Calculation
- Power Factor Correction

Creative Systems Integration Offers:

- Project Engineering and Designing as per the project Specifications
- Development of project specific Programming Applications (PLC, HMI, SCADA, DCS Interface)
- Project Management with enhanced management experience to ensure reliable solution and on-time delivery
- Power and Control hardware Cabinets, VFDs, MCCs, Switchgears, Junction boxes with international workmanship and quality standards
- Worldwide Field commissioning and Start-up support
